Subject:- Electric Supply Companies in the Province
Issue of a Circular to-in connectionwith
irregular supply.-

Some time back, the H.M., P.W.D. suggested that a Circulet ar letter should besent to all the Supply Companies in the P Province asking them to realise the difficulties of the consumers on account of interrupted supply and also to attend to their ~~xxxxx xxxxxx~~ consumers courteously and sympathetically. The H.M. also agreed that the Engineers in charge of the power houses should notify the ~~xxxxxx~~ Presidents of the Municipalities and the Collectors of the Districts concerned of any anticipated breack-down in the supply, so that these officers may be in ~~a~~ position to make arrangements for the supply of kerosene to the consumers who are affected during the period of interruption in the supply.

2. A draft circular as approved by the H.M., P.W.D. is attached, and I request that Government may take immediate steps ~~xx~~ to issue this Circular to all the Supply Companies in the Province.

3. I also consider that it would be advisable to issue a Press Note on the subject, so that the public may also know of the action, taken by Government.

No. 1932/36-El. Public Works Department, Bombay Castle, 31st Aug. 1948.

From

The Deputy Secretary to the Government of Bombay, Public Works Department.

To

All the Electrical Limcensees and Sanction Holders in the Province of Bombay.

Subject:- Grievances of consumers.

Dear Sirs,

It has come to the notice of Government that the electric supply is seriously interrupted at a number of places and that the consumers at these places are put to serious inconvenience on account of the irregularity and uncertainty of the supply.

2. While Government fully appreciates the difficulties of the licensees in obtaining the genuine spare parts and effecting expeditiously the necessary repairs to the engine parts damaged in service, Government cannot but view with disfavour the irresponsible attitude of some of the licensees who, instead of taking their consumers into confidence and explaining their difficulties to them behave quite indifferently to them even to the extend of injuring their feelings.

3. All the licensees in the province are, therefore , requested to fully appreciate and realise the serious inconvenience and great hardships which their consumers have to put up with in the event of interruption to the electric supply, and to attend

to these consumers most sympathetically and courteously in a manner which will insprire confidence in their minds about the licensees ability to attend to their needs.

4. Whenever an interpruption in the electric supply becom me imminent on account of the failure of any engine in t the power house, the Engineer in charge of the power station must immediately notify the President of the Municipality and also the Collector of the District, so that steps can be taken by these officers either to remove or to minimise the inconvenience to the public during the period of interruption. The Engineer in charge of the power station should also take care to inform the public in the area of supply of the anticipated interruption through the local press and the consumers association, if such association exists.

5. Government would like to impress upon all the licensees in the Province that any discourtesy or incivility towards the suffering consumers by them would rouse the greatest indignation not only of the public but also of Government.

6. The receipt of this Circular may please be acknowledged.

Yours faithfully,

Id. 1-9-48.
